(read CA report and ITR, read loan letter)

19. About your project

In my under graduation I did my major project on web development domain in which used MERN stack. The name of my project is student grievance cell where there are two departments and if the student has any complaint they can lodge in it and get response from the admin, they can also know about the status of their complaint and the work of the admin is to update the status of the complaint once they solve it.

20. After masters

Once I complete my masters I intend to come back to my home country and work as a Database administrator in top MNC's. The knowledge and skills I learnt in my masters will help me to strengthen my knowledge.

21. Which major?

I intend to pursue masters in Computer and Information Sciences in Texas Tech University

22. Why this course?

In order to become a database administrator, I should have proficiency in database systems, operating systems and network security. These topics are covered in this course so I opted to take this course as it will help to reach my goal.

23. Would u like to do phd after masters?

I am going to US to pursue my masters and at the moment I don't have any intention to do Phd. I want to complete my masters and come back to my home country as soon as possible.

24. Do you have siblings?

No I don't have any siblings.

25. Will you work?

No, I am not going to work there.

26. Will u do internship over there?

I have no intention to work, I am going there to pursue my masters but if the internship helps me in my research then I will take it.

27. Why not other countries?

28. Your under graduation college?

I am pursuing my under graduation from Devineni Vnekata Ramana and Dr. Hima sekhar MIC college of technology in computer science department with an overall GPA 8.92 till 7th semester and I will graduate in June 2023.

29. How will you transfer your family?

Through wire transfer

30. How did u prepare for this interview?

To gather all the required documents I went through ustraveldocs website.

31. Are your parents happy with your decision?

Yes, my parents are very happy with my decision. Both of them are educated and they know the value of masters in my career. It is a dream come true to both me and family.

32. What will your education in US will bring you back in India?

I want to work as a database administrator in top MNC's in India and master's from US will help me to reach my goal by acquiring required skillset to reach my goal.

33. About america

34. Adjust to new environment

I don't think I will face any problem with climate because my body can accustom easily to any climate and when it comes to place, Americans are friendly and they won't make you feel that you are a foreigner. So, I won't face any issue in adjusting to a new environment.

35. What if i reject you?

By considering my academic records and financial documents I never thought such a question will arise.
